The AZ Partners in Leadership program is designed to provide information, training, resources and skill building to self-advocates and the parents of children with disabilities so that they can become better advocates for themselves or their children. Participants will have an opportunity to meet and unite with others who have similar concerns to create a powerful voice on important issues. Participants learn how the legislative process works at the local, state and national levels. The goal of the training is to develop productive partnerships between people who need and use services and those in a position to make policy and law.

"Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI and VII) and the Americans with Disabilities Act of 1990 (ADA) Section 504 of the Rehabilitation Act of 1973 and the Age Discrimination Act of 1975, Pilot Parents prohibits discrimination in admissions, programs, services, activities or employment based on race, color, religion, sex, national origin, age, and disability. Pilot Parents must make a reasonable accommodation to allow a person with a disability to take part in a program, service, or activity. Auxiliary aids and services are available upon request to individuals with disabilities. For example, this means that if necessary, Pilot Parents must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that Pilot Parents will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible.
